As regards (A) above, it may
be taken that the lands may be
re-assessed and the lands
are cultivated & the work can be
resumed. To delay compensation
in such cases will be very hard

C/O No.11 Adv. H.Q.
Dated 7th July 1943.

To: All C Areas.

Subject: REQUISITIONED LANDS.

In-view of the desirability of growing as much food as possible you will please carry out a review of all lands requisitioned by the Military in your area, and take the following action:-

(a) Lands which are still required by the Military, but which are not required to be used in the immediate future.

The Civil authorities will be informed that this land may be cropped, but it must be made quite clear that the land will have to be vacated immediately it is required for Military purposes, and further, that no compensation for any consequent loss of crops will be payable.

(b)

(b) Lands no longer required by the Military.

These will be de-requisitioned at once and a report made to this H.Q.

With reference to your letter No.R.F. 413-42/Pol. dated the 17th July 1943, forwarding for information a copy of letter from Headquarters, Southern Army, dated the 7th July 1943 addressed to all L of C Areas on the above subject, I am directed to observe that, ~~as regards~~ lands which are still required by the military but which are not required to be used in the immediate future, ~~they~~ are proposed to be allowed to be cropped, ~~making~~ it/ *unmistakable* quite clear that they should be vacated immediately they are required for Military purposes, and further, that no compensation for any consequent loss of crops will be payable. It is not clear if in respect of these lands, the usual compensation will be continued to be paid during the period during which the land is allowed to be cropped. If, however it is the intention to suspend payment of the compensation during this period, ~~in the latter cases,~~ I am to point out that it would not be either reasonable or equitable to deny compensation ~~in such cases~~ for losses due to the lands being re-requisitioned after they are cultivated but before the crops are realised. I am to request that this may be brought to the notice of the authorities c--- P.T.O.

REQUISITIONED LANDS.

REF: Your No.RF413-42/Pol dated 14 Aug.43.

1. . . If land is not derequisitioned, but merely cropped by the owner, under the authority of this H.Q.No.2831/03 dated 6/7 July 43, he still continues to draw the compensation originally granted to him for his land by the Government of India. No further compensation will be admissable for crops which may be lost in the event of the military authorities requiring the use of the land before the harvest is gathered. It is in fact a concession to the owner that he may, if he so desires work his land, but of course he does so entirely at his own risk, and in no circumstances will liability to additional compensation be admitted.

2.

2. If land is derecuisitioned, no recuisition fees will be payable after the termination of recuisitions. Should it later become necessary to recuisition the land again, the usual procedure as to compensation will apply.
